

Advantages

- Fully automatic tool (shoots up to 1,000 shots/hr)
- Low push down force (4.2kg)
- 95J Impact force; **20% MORE POWER**
- Fuel and battery gauges; check levels anytime
- Fuel cell provides up to 600 shots
- Lithium battery provides up to 10,000 shots
- Weighs only 3.3 kg (with battery); **10% LIGHTER**
- Bi-function hook 180° rotative; Belt and Scaffold positions

2 Step Installation Method

- 1 Place 5 Pins: 1 in each corner and 1 in the middle*
- 2 Fasten insulation using T4 IF Compact tool

4 times faster than traditional stick pin installation method

* per 2 feet x 4 feet board and approximately 6 inches from any edge

Exterior Walls

Heated Floors

Balcony

Foundation Wall Concrete

Foundation Wall Hollow Block

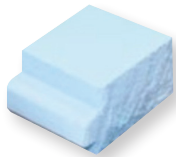

Parking Lot Ceiling

PATENTED TECHNOLOGY

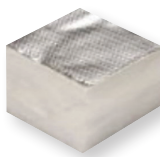

Flanges to ensure the insulation remains perfectly in place during the fastening process.

Improved Thermal Efficiency with Integrated Cap

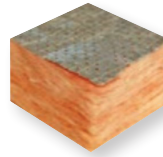

99.4%
or better

Extruded Polystyrene

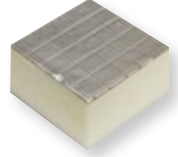

Polyester

Fibreglass / Rockwool

Expanded Polystyrene

Polyurethane Foam & Polyisocyanurate
